

MOMBASA-COAST MINISTRY UPDATE
SEPTEMBER 2011

It is with great humility that we take this opportunity to share with you what the Lord is doing through us in our ministry at the coast of Kenya. We give thanks to the God and the Father of our Lord Jesus Christ for making us to become his servants. My family and I we have the joy of serving God in this region. In this update, we will also share with you the progress of the Coast Vision 2015 as demonstrated below by use of power point.

1. BGSM Training Program

In our last updates, we explained our vision 2015 to be our goal for five years (2010-2015); to plant 20 Grace Churches, establish 1 main Bible School, and 5 extension Bible training centers in different areas within coast region. To begin with, the Lord has helped us to establish a system of training church leaders in our four residential Bible training institutes. The name of our training program is called "Berean Grace School of Ministries- (BGSM)." This is a training program for 3 years, that is, Bible certificate level one-1 year, Bible certificate level two-1 year, and the 3rd year will be Diploma in theology and leadership. Currently, BGSM has 50 students in total who are registered in different centers and are attending our training. Seven students out of the total number are in their second year of training.

There are more open doors of teaching grace message through our training program; in Malindi, north-coast of Mombasa, and Saburu-west of Mombasa. We have contact-persons who have influenced the interested people. They have also identified the places where the training will be conducted. Pray that this training will lead to planting grace churches in these areas. The ministry of training is growing every day. Pray that the Lord will raise someone who has a burden for the thirsty souls seeking for the sound teaching which leads to sound living.

2. Churches

Through the teamwork of those who are being enlightened after studying the word of God rightly divided, the Lord has enabled us to have 8 Grace Churches at the coast. We formed a team of leaders called 'Coast Grace Team-(C.G.T.). The team consists of 8 Pastors, one from each church. This team meets every month to discuss the ministry progress, planning, as well as praying for the general grace ministries at the coast of Kenya. TCM missionary, Luz Gaddi arrived in Mombasa. She has joined the C.G.T and she has started training teachers for various groups. We are thankful to God for anyone who has prayerfully supported and is standing with the Lord's work in anyway. Your great support has played an important role in this progress. Together with you and with God's help, the Lord's work at the Coast of Kenya is growing. We are focused to the goals of accomplishing what God has called us to do in this region. Be blessed abundantly.

NB: Coast Regional Bible Conference for this year will be on 25th to 26th November 2011. Our theme will be "**Making Known the Mystery**" (Eph.3:1-12).

In our previous ministry update, we mentioned some prayer items that we requested for your prayers. We cannot forget to thank God for His faithfulness in answering our prayers. First, the Lord provided for a good place for our worship services as well as our training for our main Bible school here at the coast. Second, our next request was about the public address system which will help us in our public evangelism within coast. As I regularly visit TCM website, I have noted that the Lord has provided for some of these PAS items. I want to thank God for the keyboard and microphones which has been donated pertaining to this request so far. We trust God that He will supply for the remaining items. We thank TCM administration for making this request open to anyone who wishes to serve God through this project. Your support towards public address system (PAS project) will be a blessing to our ministry in Mombasa and coast region at large in spreading the gospel of grace. Thank you for your faithfulness in partnering with us in furthering the gospel of the grace of God.

Finally, we did also mention about the need of a vehicle to help in our growing ministry at the coast. Thanks for your prayer. The Lord did provide with the Land-rover temporary to be used at the coast until when Gardner Improso will return to the country after his furlough. We sincerely thank God that so far this vehicle has become a big help to our ministry. Because of our vision of reaching the entire coast region with the wonderful and unique message of God's grace, we still request you to continue praying that our faithful God will supply for this major project for the sake of His service. We will appreciate for any donation that will enable us to purchase a **cheap, conditional and economical van for the ministry at the coast (possibly a Nissan or pick-up double cabin)**. Such a vehicle may cost between \$ 3,500 to 4,500. Finally, we asked you to continue praying for more open doors of reaching the people at the coast with the gospel. We thank God that the grace message is gradually being accepted.

For more detail about the coast ministries; church planting and Bible School Trainings, you can access our two websites through the address below. The sites are in the early stages of development. We welcome your ideas in order to make these sites a better tools in making all men to see what is the fellowship of the mystery (Eph. 3:9). www.msa-gracechurch.webs.com / www.bereangraceschool.webs.com
